

BECOME A LONDON BRIDGE SUSTAINABILITY CHAMPION

Whether you are starting your sustainability journey or have already implemented a programme of change, we're looking for individuals and organisations to galvanise support, maintain momentum and foster excitement about implementing the London Bridge Decarbonisation routemap.

TEAM LONDON BRIDGE

WHY SHOULD YOU BECOME A SUSTAINABILITY CHAMPION?

Enhance your business brand and reputation

Showcase your efforts and inspire others

Future-proof your business

Measure and improve your business footprint

You will be invited to attend governance meetings, forums and networking events, to share your expertise and lessons learnt, to help create educational content, and to motivate and engage fellow businesses. The level of commitment will be up to you.

THE LONDON BRIDGE DECARBONISATION ROUTEMAP

Published in July 2022, this routemap shows how the business community, supported by Team London Bridge, can collectively and individually reduce emissions and become a carbon neutral business district. Delivering the routemap will also build economic resilience, reduce bills, develop innovation and strengthen supply chains. We're looking at the following approach to make this work (see right):

Communal large scale projects

Enabling interventions

Business-led interventions

Sustainable Transition Fund
